

Customer Service Policy

Approved synthetic service recovery and communication policy.

1. Customer commitments

Commitments need a realistic deadline. Missed deadlines are recorded and escalated; customer drafts must acknowledge them plainly.

2. Permitted recovery

Staff may apologise, investigate, update status, arrange a policy-permitted replacement, or escalate. Discounts and compensation require manager approval.

3. Consent and channels

Private outreach requires recorded consent. The platform may open approved WhatsApp or email links but must not send automatically.

4. Safe claims

Do not guarantee delivery, availability, savings, or outcomes. Verify prices, promotion dates, consent and inventory before approval.

5. Human responsibility

AVO gives evidence-linked assistance. An authorised employee remains responsible for every decision, approval, message and execution.
